

# SUMMER ENRICHMENT ACADEMY 2011

## #1 STRINGS

New this summer: Students who play a stringed instrument (violin, viola, cello or bass) are invited to attend a summer strings workshop. This course is intended for students with previous playing experience who would like to keep up their skills over the summer, learn new music, meet new friends and put on a summer concert for their family. This class meets for two hours daily. Students will be working in groups determined by playing ability and age. Come join us! All students must provide their own instrument and music stand if they have one.

Tuition: \$75.

Instructor Bennett

Grades 1-8

## #2 ROCKETS

Rockets are the oldest form of self contained vehicles in existence. Early rockets were in use more than two thousand years ago. Over along and exciting history, rockets have evolved from simple tubes filled with black powder into mighty vehicles capable of launching a spacecraft out into the galaxy. In this course we will explore the history of rockets, build and launch rockets, and discuss the laws of physics that make rocket propulsion possible.

Tuition: \$75

Instructor Chamberlain

Grades 6-8

**For students currently in 1<sup>st</sup>  
grade through 8<sup>th</sup> grade**

**JUNE 13-17 First Session**

**JUNE 20-24 Second Session**

**Springboro Junior High**

1605 S. Main Street

Springboro, Ohio 45066

## #3 CHOIR

Improve your vocal technique and enhance your musical experience. Learn to sing with others in small and large ensemble settings using 2- and 3-part music. A variety of music and styles will be rehearsed and presented in a concert on the last day.

Tuition: \$75

Instructor Ryan

Grades 6-8

## #4 CSI WARREN COUNTY

Can they really do all those things you see on TV? Find out by taking this class with guest appearances by the Warren County Coroner, a forensic dentist who was on site during 9/11, and the Warren County Sheriff's Office.

Tuition: \$75

Instructor Blanchard

Grades 6-8

## #5 ART

If you have a love of art or that creative spirit, this class will provide you the opportunity to explore several artistic mediums.

Tuition: \$75  
Instructor Lewis  
Grades 5-8

## SUMMER ENRICHMENT ACADEMY 2011

## #6 CREATIVE WRITING

(Short Story)

We will discuss and utilize the writing process to explore multiple story elements. We will focus on creativity, independent thinking, and the generation of new ideas. Students will be provided the opportunity to interact with peers in order to strengthen their writing skills. Students will be given the chance to write and explore various topics daily, read selected stories, and create a piece of writing they will see through all stages of the writing process

Tuition: \$75  
Instructors Gelhaus and Sliter  
Grades 6-8

## #7 FABRIC

In this course, students will make a new fabric craft each day while learning basic techniques of sewing, embroidery, and crocheting. During the five day course, students will create a personalized embroidery pattern, weave a coaster, sew a stuffed animal of their own design, and make a drawstring bag. Students will get to take home all of their creations as well as supplies used in the class at the end of the session.

Tuition: \$75  
Instructor Baldwin  
Grades 3-6

## #8 MUSIC and MOVEMENT MATHEMATICS

Get your math groove on as students use music, manipulatives, games, and movement to explore addition and subtraction, patterns, fractions, place value, and problem solving.

Tuition: \$75  
Instructor Pham  
Grades 1-3

## #9 PLAYDOUGH MATHEMATICS

Gear up for some hands-on math fun as K-3 students work on math skills such as addition and subtraction, geometry, measurement, fractions, and problem solving through the use of games, manipulatives, and Playdough! Students will take their Playdough home at the end of the week.

Tuition: \$75  
Instructor Konkle  
Grades 1-3

## #10 MATH IN SPACE

Students will explore math concepts such as volume, surface area, distance, velocity, scale drawings and how to keep a budget through water bottle rockets. Students will work with teams to create a company that specializes in building rockets. They will spend the week working as a team to design and test various water bottle rockets.

Tuition: \$75  
Instructor Woods  
Grades 4-6

## #11 MATH MAGIC

Problem solving, computation, and estimation take on a whole new dimension. This class will include activities that make kids think. Besides covering the basics, other topics will include math puzzles, math tricks and games, manipulatives, and logic problems.

Tuition: \$75  
Instructor Oriani  
Grades 2-5
