Summer Educational Resources

Are you looking for something for your students to do this summer to keep their minds fresh? Research shows that most students lose 2-3 months of grade level math equivalency over the summer. The Kings Local School Curriculum and Instruction Department is delighted to inform you about some programs available to help reverse summer learning loss and be prepared for next school year.

An hour a week is all it takes for your child to strengthen his/her math skills, and prepare for the year ahead. The TenMarks Summer Math Program will guide your child through their personalized program, one topic at a time, helping them refresh what they know, and learn what they don't know. Each assignment contains embedded instructions (hints, video lessons, and interventions) to help your child refresh concepts from the past year and prepare for the ones ahead. For more information on how to access the summer math program [click here](#).

Also this summer, the Butler County Educational Service Center is offering Summer Enrichment Programs all throughout the summer. For more information [click here](#).
