

Kings Local School District Brand Guidelines 2018

Primary logo and identification guidelines

Our Brand. Our Vision. Our Future.

Why a new logo?

The Kings Local School District is dedicated to achieving excellence in everything we do. It is important that we communicate effectively and promote our district in a clear, consistent, and professional manner. Our visual identity or brand conveys a very important message.

The Kings Local Schools brand may consist of items such as a logo and its assets, colors, and typography. Our brand is a reflection of our image and how others view our district. Consistent use of this guide will help us establish a common look and feel across the district and make our uniforms, signage, and communications recognizable to the public.

In the following document, we have developed a brand strategy to provide consistency while giving flexibility for both academic and athletic uses.

Official Use of Kings Local files

The images contained in this guide are the “official” logos of the Kings Local School District. The images available in this packet may be used for all internal and external materials and communication. These standards will help in defining our brand, encourage creativity, but most importantly, provide a framework for excellence for many years to come.

****All design proposals must be submitted and approved. Please allow up to 2 weeks for the approval process.****

Usage Guidelines

The objective of this guideline is to provide a reference tool for designers and others involved in communicating on behalf of the district.

In order to ensure the correct logo usage and visual identity for internal and external materials intended for distribution, all printing, advertising, and website materials should comply with the guidelines in this manual. All advertising and marketing materials must be reviewed by either Kings Local Schools prior to production and distribution.

Because the Kings Logo represents the entire district and not solely an athletic logo, all organizations directly affiliated with the school district are permitted to use the logo for fundraising purposes or otherwise, including but not limited to, PTO's, the Kings Athletic Booster Club, Kings Foundation, KEA, and Kings Band Boosters. Logo usage is unlimited to these organizations in its correct format and usage.

The Kings Local School District Marks are owned exclusively by the district and are protected under state and federal laws governing trademarks and copyrights. As a brand owner, the district has a responsibility to enforce the branding guidelines. Therefore, the district will require that any proposed use be approved beforehand. This includes use on clothing items, posters, web pages, and all other uses that may create a likelihood of confusion with respect to the source, sponsorship, or affiliation with the district, whether or not such use of is for profit.

Please note that unlicensed uses and uses inconsistent with the district's instructions on use are infringements of the district's intellectual property rights, which will be enforced as necessary. Outside organizations are not permitted to distribute any items with the Kings brand mark to the public without first consulting with Dawn Gould or Tyler Miller.

This policy applies to youth groups, affinity groups, booster groups, parent groups, vendors, and all other third parties.

If there is a question about proper logo usage, use the contact information from page one of this document prior to design development or any time throughout the design process.

PRIMARY LOGO

The official Kings Local School primary logo consists of the district name Kings Knights spelled out with the shield and knight head. This should be the primary logo used for all school-related literature and apparel.

Typography

The primary font for the Kings grand is Collegiate Heavy and Knights is Futura Extra Bold.

KINGS font: **Collegiate Black** 

KNIGHTS font: **Futura Extra Bold** 

Wordmark Logo Variations

We have created some alternative wordmark versions of the stand alone Kings Knights. The variations can be used for black and light backgrounds. The wordmark can be used when simple text is needed.

Lettermark Logo Variations

As another “asset” strategy of our brand, we have created a series of lettermarks. The variations include the “K” with different color variations. The lettermark is for use when the primary logo isn’t used.

Brand Assets

The following brand “assets” can be used in combination with the lettermark, as well as stand alone.
