## Kings BOE Approved New Boundary Lines

The Kings Board of Education approved the proposed elementary boundary line changes at the February 16 meeting. This change will take effect beginning in the 2016-2017 school year. Letters have been mailed to the approximately 140 students and families affected by the boundary line change.

There will be a Grandfather Option in effect **only** for the 2016-2017 school year and will also grandfather any siblings of incoming fourth grade students for one year. Anyone who chooses the grandfather option must provide their own transportation for that year. The grandfather option sheet will be available on our [website](#), at our Central Registration Office, and KME, and is due on May 1, 2016.

We understand this will be a big transition for our students and their families. We have planned many activities to help make the transition as smooth as possible.

We thank the Kings Community for their support and input as we went through the process of our increasing enrollment situation. We will continue to keep you informed and count on your feedback. Together, we will continue to be #KingsStrong!

## Kings Preschoolers Learn About Dental Care

The 4 day preschool classrooms at Kings Preschool enjoyed a visit from students in the Dental program at Ross Medical Education Center. A few of the activities included flossing with Legos, Playdoh and yarn, sorting healthy and unhealthy foods, and brushing away cavities. Our preschoolers were given take home certificates, books and toothbrushes.

## SLE Learns About Energy Conservation

## Project Hold Space Comes to KHS

The entire student body at Kings High School were treated to a special assembly this week by Project Hold Space, a nationwide initiative to educate U.S. schools about addiction and mental health. Twin brothers Bobby and Chris Bailey have committed themselves to seek to tackle the widespread growth of severe mental disorders that affect approximately 20 percent of youth between the ages of 13 and 18. Currently focused on Ohio, Hold Space visited eleven schools in ten days, making a stop at KHS.

Chris was addicted to meth and alcohol for 12 years when his twin brother Bobby Bailey (film maker and founder of Invisible Children) found him homeless in California. Bobby was by Chris' side and Held Space for him as they stayed in a hotel for 8 days together through Chris' detox. Shortly after Chris went into a rehab facility and then decided to walk 3000 miles. His walk across the country from Los Angeles to New York City, connected him with people in recovery and their families, but most importantly connecting with himself as he learned about addiction and recovery. In his own words Chris writes, "Life is a sacred pilgrimage, a walk to remember who you are and why you are."

Former professional athlete, Terrence Engles also spoke to the students about his recovery story.

Connie Ring, teacher at Moeller High School said, "Chris' talks with our community were mind blowing and have transformed the language in our school."

Students entering 12th grade will need to have a second dose of meningococcal vaccine. The second dose must be administered on or after the 16th birthday. If the first dose of meningococcal vaccine was administered after the 16th birthday, a second dose is not required.
