KHS 2nd Semester Exam Schedule for Underclassmen 2018

Exam Week Protocols

1. Once your exam starts, all students must remain in the room until the exam period ends. Students will be asking if they can leave once they finish. **The answer is no!**
2. During exam week students are not permitted to take exams at any other time than scheduled. They must be in their assigned locations at the beginning of that specific bell. If a student has study hall to start or end a day they are permitted to come in late or leave early. This is for study halls only. Once a student is on property they may not leave and return.
3. If a student has a study hall during 1st, 3rd or 5th, they can report to school at 10:05 AM. All students must report and be here for the review sessions on these days. In other words, if a student's day begins with an exam period during which a student has a study hall, they don't need to be here for study hall. **We are not an open campus.** Students are not permitted to come to school, leave and then come back to school to go home
4. Students MUST BE in attendance for the review session if they are going to take the exam. Students may not simply arrive at 10:40 am to take the last exam of the day. Students that are late can make up the exam after 12:30 pm in the main office. They won't be given a zero but will have to take it at a different time.
5. Once students finish their exams, it is critical that classrooms remain quiet until the exam period ends in order to prevent disturbing other classrooms that may not be finished.
6. Students should not leave the classroom at any time during exams. Obviously, teachers will use their own professional judgment with regard to medical emergency or who may very seriously need to use the restroom. Students should not be leaving a room to go to a locker, another classroom, the media center, or the office. The administration will help to make sure that the hallways are clear.
7. Busses will run on their normal schedule
