THE GLOBAL GOALS
For Sustainable Development

Helping today. Creating a better tomorrow.

Thanks to committed students, causes, nonprofits, and projects receive desperately needed support. INSPIRING SERVICE is recognizing students who dedicate personal time and effort in service to others.

These Awards have been created with a special emphasis to connect personal and collective community service with progress toward the UN Global Goals.

The Awards are designed to celebrate contributions of time, energy, and talent invested in the causes you care about. In this attainment based system, students need to demonstrate both the service hour threshold and activity count to earn an award.

The structure underscores one of our core beliefs: everyone has the possibility to achieve greatness through personal commitment.

Volunteering – Service Events – Tutoring – Food Packaging – Walk / Run for a Cause
Donating – Helping Others – Leading - Cleanups – Coaching – Fundraising – So much more...
